DETAILED ACTION

The amendment filed on 12/19/2002 has been entered.

The amendment overcomes the rejections of claims 16-20 and 30-32.

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Specification

2. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Allowable Subject Matter

3. Claims 16-20 and 30-32 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record neither shows nor suggest a method of producing a discharge lamp with electrodes formed by, in part, a cutting step for cutting the formed n layers of coils and the core member to provide a flat tip surface; a removing step for removing the core member after the cutting step; and a rod inserting step for inserting an electrode rod into a space from which the core member has been removed, the electrode rod being made of refractory metal, along with the limitations of the claims.
